**December 03, 2025: On the Spirit that Exists and that Should Speak for Itself (since it is so proud)**

I will speak for the symbolism that is being forced into our home while we try to live in peace:

The United States military is using its technology to insist that my life is ‘fat’ that is being ‘burnt away’ in a sacrifice to their god.

This is pure Nazi-ism and has no place in our society.

This is the exact imagery and mentality that led to the Jewish Holocaust and now we are being force-fed this imagery from Freemasons within the United States military into the homes of American citizens.

I present this imagery and these messages as a WARNING to be heeded in acknowledging that the United States government has gone astray.

Truly, this is a sad and horrible cancer that has set into the ‘American’, mentality and way of life.
